Global Health Care, LLC

Thank you for exhibiting at the upcoming International Pharmaceutical Regulatory & Compliance Congress in Athens, Greece, April 8-10, 2019. Below is important information related to exhibiting. Please review each section carefully.

Size of Exhibit

The space you have to exhibit is a tabletop size location (6 feet wide by 3 feet deep). Due to space constraints we are not able to offer the standard booth size.

Setup, Teardown & Events in the Exhibit Hall

This webpage provides information on setup times, teardown times and the times attendees will be in the exhibit hall: <https://www.internationalpharmacongress.com/exhibitor-info/>.

Shipping Information

Below is the shipping address to the event. We also ask you to put the above “banner” on your package. We ask that you ship your materials early in case there are any issues with customs. **For more information on shipping into Greece contact your courier of choice (FedEx, UPS, DHL, etc).** Taxes may apply to shipments and please review the customs information for shipments arriving into Greece. Please email me your tracking numbers once shipped.

Here is the shipping address:

13th International Pharmaceutical Compliance Congress

Exhibit Table Location

The Grand Hyatt is recently renovated hotel with Hyatt taking over management. As a result, we have had difficulty getting a floor plan. As in past years, the exhibit hall is in the foyer area outside the plenary session room. Once onsite, we will have you exhibit tabletop location assigned.

Power and Internet

Both power and Internet are provided. Please let me know if you need power at your booth.

Complimentary Registrations

You should have received an email with how to register your complimentary passes. If you have not received it, please let me know.

Hotel Room Reservations

Please ensure your attendees and speakers have made their hotel reservations. Here is more information about the group rate: <https://www.internationalpharmacongress.com/travelhotel/>

If you have any questions or need further information, please let me know.

Sincerely,

Justin Sorensen
